For example, a woman could call the bank of a male victim, pretend to be her wife, claim an emergency and request access to her account. Precautions Precautions As you can use strong passwords and two-factor authentication for accounts, but accounts may still commit to third parties with access to accounts, such as Bank employees. Here are three popular attacks of social engineering. The link may contain malicious code that may steal personal information from your computers. Popular social engineering techniques include phishing, cat fishing, tailgating and baits. Online bait occurs when hackers send advertisements with links that seem opportunities to find jobs, earn side money or seem to provide useful information. If you're not waiting for a link or attachment from a friend or colleague, it may even be worth a phone call or text message to find out if they sent it to rule out a scammer. Because these pieces of information can be used later for identity theft. Additional ways to decrease piracy are using two-factor authentication, using fake or hard-to-guess answers to account security questions, and keeping a close eye on accounts, particularly financial ones. Social engineering attacks don't just happen online. Set your spam filters to a stop to keep spam messages, and never open an attachment without careful consideration of what it contains. Social engineering is extremely common and hackers and scammers are becoming more sophisticated in their methods. Why? There are many ways hackers create social engineering attacks, from posing as a professional offer of technical support to "fix" a bug on your computer to sending a "friend" request to your social media account. Physical interactions may occur, such as an individual pretending to work in your office and asking you to let them in. adadivlo adadivlo ,acitÁlop anu odalioh ab euq odnamrÁa ,onreibog ed anicifo anu osulcni o ,areicnanif n<sup>3</sup>Áicacitneta arto u ocnab nu neyulcni es euq socin<sup>3</sup>Ártele soerroc o sotxel ed amrof ne nazilaer es safatse satsE .aduya natisecon y ,natejrat us ed evalc al o atreup al ed ogidÁc le noradivlo" etnetimer .odiconocsed etnetimer nu ed rahcepos a sasneorp sonem nos sanosrep sal ednod ojabart led ocin<sup>3</sup>Ártele oerroc ed n<sup>3</sup>Áicercid anu a naÁvne es odunem a socin<sup>3</sup>Ártele soerroc selaT .sodicellaf o sodikerapped sodireuq seres sus ed laicos oruges ed sorem<sup>3</sup>Án y otheimican ed sahcef ,senoiccerid ,aretlos ed serbmon omoc elbacifitnedi lanosrep n<sup>3</sup>Áicamrofni nenocroporp euq selodn©Áidip sertsased ed samitcÁv sal a ratolpxe se acitc;Át arto .econoc detsu euq oicogon nu o neigla ed rinevorp necerap euq socin<sup>3</sup>Ártele soerroc sol a n<sup>3</sup>Áicneta ahucum ratserp aibas n<sup>3</sup>Áisiced anu se erpmeis Y .ro±Áes ,ÁS .rodanedro us atcefní erawlam le ,obec le ne cilc ecah adineverpsed anosrep anu odnauC .evalc n<sup>3</sup>Áicamrofni a eicnuner euq arap ovitejbo nu ed n<sup>3</sup>Áicalupinam al a ereifer es laicos aÁreinegni .ovitejbo nu ed atneuc al rartenep arap socit;Ámrofni sametis raekcah ed ragul ne sanosrep sal a ralupinam ne asab es laicos aÁreinegni aL .orenid us elabor y erbmoh led atneuc al a redecca riugesnoc edeup ,etnatneserper led acit;Ápme aicnednet al a odnalepa ocnab led etneic la oicivres ed etnatneserper la etnemlaicos ralupinam argol rejum al IS .etneg al a aduya ridep omoc ,laicos aÁreinegni ed sameuqse ne sallicnes etnemetednerpros sacitc;Át nazilitu odunem a setnacata sol .s©Áretni ese noc odanoicaler ecalne nu ovitejbo la raivne ogeul y seseretni sus ed acreca rednerpa racilpmi nedeup sacif Ácepsa sanosrep a sadigirid sadarobale sÁÁm sacitc;ÁÁT .laicos aÁreinegni ed n<sup>3</sup>Ámoc sÁm amrof al se lanosrep n<sup>3</sup>Áicamrofni ed samrof sarto y senoiccerid ,laicos oruges ed sorem<sup>3</sup>Án renetho arap odazilitu gnihshp IE .nagneverp sovitejbo selbisop sol euq arap ajelpmoc se laicos aÁreinegni aL .satneuc sus a sa±Áesartnoc riteper on y selaicos seder sal ne n<sup>3</sup>Áicamrofni ritrapmoc la sosoletuac res ,laicnedifnoc n<sup>3</sup>Áicamrofni rad rative neyulcni sotsE .a±Áesartnoc us eibmac euq elridep o ,sotseupmi sus
